

RevInsite®

Defined Analytics. Optimized Revenue Results.

Optimizing Your Revenue Cycle.

The CBIZ/Divurgent RevInsite® Solution provides a comprehensive analysis of a hospital's revenue cycle. Utilizing proprietary data analytics and reporting, RevInsite® identifies the strengths and weakness within a hospital's revenue cycle operations and articulates specific actions steps that will help fix processes, reduce compliance risk, and add additional revenue.

Identify Additional Revenue Possibilities.

Resolve Revenue Issues.

Protect Your Revenue.

Monitor Revenue Cycle Continuum.

Analyze Key Indicators. Examining key revenue cycle indicators is critical to ensuring revenue optimization. This analysis will highlight areas of revenue leakage and provide recommended action steps to help improve revenue cycle operations and protect organizational margins.

Identify Organizational Metrics. Utilizing organization-specific metrics and tools such as DNFB, AR, CDM, CDI and DSO, our unique reporting will identify the elements of the revenue cycle that may be performing below expectations while highlighting those areas that can be improved.

Resolve Revenue Issues. RevInsite® will quickly address the critical issues resulting from all reimbursement disruptions. Our solution will ensure that issues get fixed and stay fixed, providing additional revenue opportunities for your organization.

Monitor & Measure Results. With ongoing monitoring and measurement, RevInsite® will provide detailed reporting that examines the revenue cycle continuum, ensuring that revenue metrics are maintained in order to continually optimize reimbursement.

RevInsite®

Defined Analytics. Optimized Revenue Results.

Pre/Post HIS Conversion Revenue Protection.

The CBIZ/Divurgent RevInsite® Solution protects revenue throughout any system conversion. Coupling best-of-breed reporting and data analytics with technical HIS expertise, RevInsite® will ensure that revenue is maintained and improved throughout all steps of the conversion – before, during, and after.

Ensure Pre/Post Go-Live Revenue Success.

Protect Your Revenue.

Safeguard Your HIS Conversion.

Minimize Revenue Disruptions.

Identify Problem Areas. Prior to the conversion, RevInsite® will examine key areas to ensure that your revenue cycle performance is operating efficiently and to organization expectations, allowing us to immediately address any reimbursement disruptions.

Safeguard Reimbursement Levels. During the conversion, so much attention is focused on the conversion itself that often times revenue expectations are not achieved. Keeping an independent eye on the revenue picture, RevInsite® will ensure that expected revenue levels are maintained throughout the entire conversion.

Optimize Revenue Cycle. After the conversion, our unique reporting will not only identify the elements of the revenue cycle that may be performing below expectations, we will highlight areas that can be improved and fix them!

Monitor and Maintain Results. With ongoing monitoring and measurement, RevInsite® will provide detailed reporting that examines the revenue cycle continuum, ensuring that revenue metrics are maintained in order to continually optimize reimbursement.
